Subscription Books for the World's Fair Guarantee Fund.

Citizens Rapidly Coming to the Front With Their Cash.

Pertinent Suggestions by an American at the Paris Exposition.

It was 11 o'clock this morning when Secretary Speer brought the subscription book for the World's Fair Guarantee Fund of \$5,000,000 into the Mayor's office, and five names were im-mediately written under that of Joseph Pulitzer. whose subscription of \$50,000 was recorded when the book was received late yesterday after-noon. They were:

Kerrler & Schwarzmann..... 1,000 Fak & Washalls
Conneline Vanuerhit. 106,000
The New York Central and Hudson River
Railroad Company. 100,000
The Washer Falsec Car Company. 50,000 At the Fourth National Bank the following subscriptions were entered to-day:

New York Belting and Packing Company.... \$1,000 Frederick Muslier At 2 r. M. there were no subscriptions on the books at J. & W. Seligman's office, and nothing but the Vanderbult roads' subscription of \$250,000 at Drexel, Morgan & Co.'s.

Arthur Hellick, Secretary of the Torry Botanical Club, Columbia College, writes to the Mayor:

DEAR SIR: I am instructed by the Botanic Garden
Committee of the Torrey botanical club to request a
conference with your Committee to consider the
subject of a Botanic Garden in connection with the
World's Fair of 1893.

World's Fair of 1892.

S. C. Lowenthal, who is connected with the American section of the Paris Exposition, sent the following letter from Paris:

Your letter of the 3d inst. duly received, and would state I have no special suggestions to offer, as I see by the New York papers that you have many minds working on some good plans, only I would suggest to your honorable Committee not to have a tower, as the French people would never stop speaking of it. You must introduce something new and novel in every respect.

respect.

i. There have been more than fifty thousand Americans who came especially to see the Paris Exposition, and many French and English people say there will not be 5,000 who will vant our International Exposition in 1892, as they are not travellers, and they have seen only a part of what is here, there being too much to see, while the cost of the trip to the United States is so creat.

to see, while the cost of the trip to the United States is so great.

Now, I would suggest the following plan to you. When you have decided on the architecture of your buildings, issue pamphlets in English. French, German and Spanish, fully illustrated, giving as far as possible a description of what the Fair will be, with descriptions of New York and its many surroundings Have them placed earefully abroad where they will be seen and read. This, I think, will do much to interest many people.

Requests for subscription books were received from George C. Waldo, President Excelsion Bavings Bank, 118 East Twenty-third street William C. Barker, Manager, New York Office, Richmond Ceder Works, of Richmond Va.; Samuel W. Fairchild, of Fairchild Brothers & Foster, 82 Fulton street.

These subscriptions have been received towards the preliminary expense fund:

she has as many pockets as he has and as good a club-the one to contain and the other to broaden her. Tailors and modistes are wrestling with the pocket problem: Mrs. J. Pierpont Morgan and Mrs. Henry Wright Shelton have begun the analysis of the club question, and everything points to the complete emancipation

of my sex. To be sure, there are clubs in New York for every conceivable object and almost beyond reckoning, but the coming club, the culmination of clubs, is to be a woman's club, which will contain the same comforts and conveniences and afford the same privileges and advantages as those organized by and reserved for the exclusive patronage of the sterner sex.

Up to date Sorosis is the queen of clubs, but unless a woman has some claim to the distinction other than that of wife, mother or breadwinner she is not eligible for membership. The Young Woman's Christian Association, originally intended for the social advancement of the every-day young girl, is far from the ideal club. Among other privileges, the active officers have the right to open every letter addressed to any nember of the club, and if no other objection could be raised against the constitution this alone would drive away the Miss Liberties of the work-a-day world.

But in the coming club a candidate for membership need not have patented a nutmer grater, written poetry, raised poultry or taught physics, and once admitted neither her private mail nor her religious views will be tam-

Lederer's arrest was chronicled in THE EVEN ING WORLD Sporting Extra last night. The Grand Jury had promptly indicted the de-

"I met my hopeful son-in-law, Lederer. Several times we had interviews on business, and once or twice my daughter was present. Introductions followed, of course.

"But how the acquaintanceship thus commenced developed into the intimacy which led to marriage I am unable to say.

"Last Friday night my daughter and myself with a friend of mine and his daughter, occupied a box in the Union Square Theatre. Lederer came in the box and sat by my daughter. My friend's daughter saw notes pass between them, but did not mention it. The next day the marriage took place. The first news received was a telegram which my wife received. It read:

They Will Turn on Electrical Currents and Use Their Wires.

The Brush and United States Electric Light companies have risen in revolt at the Board of

Electrical Control. In a letter to Corporation Counsel Clark they say that they propose to restore the currents on all such lines as they consider safe, without any further notice to the Board of Electrical Control. for when they made the stipulation to leave them off it was done voluntarily and with the express assurance that the new wires should be promptly certified.

This, they say, Expert Wheeler has not done. Expert Wheeler said to a reporter of THE

EVENING WORLD this evening: "It is true that I have certified to no wires of the Brush and United States companies since the granting of the injunctions, and I have very good reasons for refusing to do so.

'In the first place, I have not satisfied myself by any means that those new wires are safe.

'I have inspected about ten miles of wires, and found that the new ones are put up as carelessly and improperly as the old.

'The fault is with the construction and not with the insulation. They are dangerous because they are strung in such a manner that the insulation is liable to be destroyed.

'The arrangement of the wires is bad, the cross-pieces weak and crooked, the poles detective and the wires are frequently strung too near other wires, so as to render them dangerons for linemen to work among them.

'In fact, they have simply repisced the old wires with new, and the general condition of the system is just as bad and unsafe as it was before.

'There are a thousand miles of wires in the the Brush and United States companies since

fore. There are a thousand miles of wires in the y, and it is absurd to suppose that I could exime them all in the short time that has olapsed.

There was no assurance given by me or any one else connected with the Board of Electrical Control that I would certify to new wires

"Yes, repeatedly, and I have refused on the grounds I have stated. The new wires are not in a safe condition in my opinion. I see they slinds to the timidity of the expert. That is corporation Counsel Clark said that he did not see anything to prevent the commanies from running their wires to-night or any other night, so long as the injunctions were in force.

They had promised not to do so voluntarily, and if they wished to break their faith they could do so.

The deal is consummated and the coalition of anti-Tammanyites is complete. An indorsement of the Citizens' county ticket has been obtained at the hands of both the

County Democrats and the Republicans. This was not secured, however, without opposition in both conventions, although it was more regular attendant at the Church of the Epiph-formidable in the County Democracy than in any, of which Dr. Burtsell is rector, and partook the Republican.

True to the position which he took when the deal was first proposed. Police Commissioner Yoorhis opposed the indorsement of the Ropublicans on the ticket, and made a speech bitterly

Voorhis opposed the indorsement of the Republicans on the ticket, and made a speech bitterly denouncing it.

He was supported by ex-Warden Thomas P. Walsh and the solid delegations from the Second and Ninth Assembly districts, together with many scattering delegates, shouted an unmistakable "No!" on the motion to indorse.

In the Republican Convention ex-Judge Ernest Hall, of the Twenty-third Ward, was the objector, his sympathies being with Judges Gildersleeve and Nehrbas, on the Tammady Hall ticket.

The Republican machine was under better control than the County Democracy, for Judge Hall ticket.

Ex-Mayor Grace, when spoken to regarding the "kick" of Commissioner Voorhis, assumed a knowing air and intimated that although the County Section, he would work for the anti-Tammany ticket on Election Day.

Tammany leaders and captains were hustling to-day. They recognize that they have a hard fight before them, and they are putting forth every effort to secure the regi-tration of every Tammany voter to-day and to-morrow, which are the last days in which an elector can qualify. The entire strength of the party will be called out and a large increase in registration is looked for to-day.

The anti-Tammany element are aware of this unusual activity and are also busy getting their voters to the registry boards, though they say that they will beat the Tammany ticket by nearly 10,000 majority.

Ex-Congressman W. Bourke Cockran acknowledged that the citizens movement, as its promoters have been pleased to call it, has political sayacity behind it.

While it cannot blind sverybody to the fact that it is nothing but a barefaced deal between the County Democracy and the Republicans, he said, it may dupe some who would rebel sagainst a direct deal.

He thought that Tammany would prevail against the odds opposed to her.

Another Tammany man, discussing the indorsement of the citizens ticket, said:

"William R. Grace would like very much to be Mayor the next term so that he might enjoy the honors attendant on the World's Fair. He'll be beaten in his present deal though, and with his defeat will come an end to his Mayoralty aspirations. "He has reckoned without his host this time."

A mass-meeting to ratify the auti-Tammany County ticket will be held at Cooper Union, Friday, Nov. 1. Dr. Depsew will be among the speakers.

FAT IN THE FIRE COST \$4,000.

Hoboken Packing Establishment. Hoboken people were excited this morning over a fire in the provision establishment of C. Hirtler & Sons, at 67 and 69 Washington street, a three-story brick building. The fire broke out in the brick smoke-house in the rear of the building about 9 o'clock, and in a lifty the flames shot up the stairway and threatened the whole block with destruction. Occupants of tenement-houses adjoining be-came much frightened and rushed into the

street.

Employees in the provision store were driven out by the fire and stifling smoke. Joseph Hanman, the engineer, had a narrow escape from being suffocated. The fire was gotten under control in about an hour.

The rear portion of the premises was gutted and a large quantity of lard destroyed. The loss on the building and the stock is estimated at \$4,000.

The origin of the fire is attributed to the dropping of fat into the coals from hams and bacon in the smoke-house.

All Coats Off for a Brief but Will Miss Kelly Be Denied Interment in Calvary Cemetery?

She Is Said to Have Attended the Deposed Priest's Meetings.

There is every sign of a contest over the ques tion as to whether Miss Theresa Kelly, who is said to have been one of Dr. McGlynn's loyal followers, shall be buried in Calvary Cemetery. The same questions are raised as in the case of John McGuire, who died last Fall.

Though she was an ardent admirer of the excommunicated priest, and attended his meetings after he left the church, Miss Kelly was a of the sacrament not later than last Sunday. An Evening World reporter called upon the Rt. Rev. Mgr. Preston. He is the Vicar-General of the New York Diocese, and it is to him

that all applications for burial in Calvary are referred.

that all applications for burial in Calvary are referred.

"No application for burial has yet been made," he said. "When her friends apply, the application will be referred to me, and after a proper investigation I will pass upon it.

If it is proven that she attended Dr. McGlynn's meetings it will affect the matter. But, on the other hand, you say that she accepted the sacrament last Sunday. In that light we must stop and consider.

"No proof that she attended those meetings has yet come to my knowledge, and I don't suppose there would be any inquiry if the matter had not been agriated in the newspapers."

Miss Kelly died very suddenly, as told in yesterday's Evesyno Wonto. She was a member of St. Stephen's Church and attended constantly until Dr. Motilynn was removed. Then she left and went to Dr. Eurtseil's church.

Miss Kelly's case is similar to that of old John McGuire, who died suddenly at one of Dr. McGlynn's meetings in the Academy of Music last year, and the same questions are raised. McGuire's friends wanted to bury him in Calvary, but interment was refused. He was buried in Greenwood Cemetery and his son brought suit against the trustees of Calvary Cemetery to compel them to receive his father's remains.

The suit was tried before Judge Beach and was subsequently decided in favor of the Cemetery Board. The case has never come to trial on an appeal, and McGuire's body still lies in Greenwood Cemetery.

If Miss Kelly's friends commence a legal action this decision would probably be brought up as a precedent.

An Evening Wonlin reporter called on Father Burtsell at 230 East Twenty-first street. The reverend gentleman refused to answer any questions whatever and gave as his excuse that he never held any communication with the presse.

Miss Kelly owns a plot in Calvary, but when the privilege is bought it is taken under the

press.

Miss Kelly owns a plot in Calvary, but when the privilege is bought it is taken under the agreement and with a strict understanding that sall rules then in force, and all that may be made from time to time, shall be complied with.

This afternoon Undertaker Kelly applied to the trustees of Calvary Cemetery for a permit to bury Miss Kelly's body in Calvary.

His application was accompanied by a certificate from Father Burt-oil that Miss Kelly was a sincere Catholic and deserving of Christian burial. burial.

Mgr. Preston directed that the body be placed in the Calvary receiving vault bending an investigation.

The State First to Establish the Identity of the Dead Man.

CHICAGO, Oct. 25. - The first step in the proscention of the Cronin prisoners, whose trial THREE MEN ALREADY DEAD. opened in the crowded court-room yesterday, is to establish as strong proof as possible of the identity of the body found in the sewer basin and said to be Dr. Cronin's. It is understood that the defense will dispute

this identity, hence the desire to make the proof

overwhelming. The witnesses called yesterday and the first ones of this morning were all on this point. The doctor's tailor, his barber, numbers of friends and police officials who had been confriends and police officials who had been connected with the case were called yesterday, as
well as Henry Rosch, the sewer builder, who
found the body.

George C. Ingham conducted the regular examination, and a sharp cross-examination was
directed by W. S. Forrest,

The examination of the witness, Rosch, was
especially interesting, as he told in rough, but
plentiful words the story of his discovery,
A story has reached here that the prisoner,

tragedy to a phow-prisoner, who had given it to an officer.

It is not generally believed that Burke made any such combidences, and but little credence attaches to the story.

Murderer Mclivaine Sentenced to Death by Electricity.

The Execution to Take Place in Sing Sing Prison.

Some Day of the Week Between Dec. 9 and 14.

Charles McIlvaine, nineteen years old, murderer of Christian W. Luca, while committing a burglary on the night of Aug. 21-22 last, was sentenced by Judge Moore in the Kings County Court of Sessions this morning, to death by electricity, at Sing Sing Prison, in the week be-

ginning Dec. 0. There were as many people as could crowd into the court chamber and the crowd was as eager to see and hear everything as a shopping crowd at a holiday opening.

to see and hear everything as a shopping crowd at a holiday opening.

There were three figures in this typical court audience whose presence there was the source of wonder in the minds of all the others.

These strice were the aged father, the bent and careworn mother and the faithful sister of Mellvaine.

Their faces indicated an agony of grief and suffering, and people marvelled that they should have voluntarily come to court to insten to the sentence which was to consign their dear one to a nurderer's death.

The widow of Luca was not present,
After much business of minor importance was transacted Mellvaine was led before the bar. He had lost all the stoicism of former days. His face was flushed and his air cowed.

His entrance was the signal for weeping by his friends, and when Judge Moore fixed the week within the limits of which the youthful burglar and murderer must die, the sister. Mrs. Nevilla, broke down.

There was a loud moan and then Mrs. Neville sunk into the arms of her husband in a taint. She was carried from the room and taken home by her husband and parents.

Ex-Judge Curtis asked for a new trial on several grounds, the most startling of which was that no constitutional punishment was provided for murder in the State of New York.

The motion was denied.

"Mollvaine," Judge Moore said, "on the morning of the 22d of August last, a reputable citizen of this city was cruelly and brintally murdered in his own house by you.

"There was no excuse or palliation for it. You were put on trial and your coursel defended you with an ability and ingenuity which astonished me. You were found to be guilty beyond any manner of doubt.

"I have never known a case in all my experience where the guilt was so clearly established. The piece of insantly never, in my ornion, had any foundation. You killed Mr. Luca while committing a burglary. You know perfectly well what you were doing, as that proves.

"The sentence of the Court is that you suffer the punishment of death. That you be taken to the jail of Kinez County

The picture was taken yesterday by THE EVENING WORLD'S artist, when Heyman came down to pay his respects to the editor, and is a good likenees.

It shows a bright, interesting and intelligent face, full of strength and self-reliance. Evidently he is not a boy who deserved to be bound into servitude until he reached manhood, as the Juvenile Asylim authorities would have had it, if THE EVENING WORLD had not stepped in and fought his cause.

Next week Heyman will be attending his classes again at the Grammar School in Seventieth street. His teachers and his schoolmates are prepared to give him a hearty welcome on his return, and he will, no doubt, soon regain the place which he has always held near the top of his class.
